EFFECTIVE USES OF SOCIAL MEDIA AND WEB 2.0 TOOLS
IN TEACHING AND LEARNING
Presented by Rhonda Miller

Social media, along with other Web 2.0 tools, are changing the way that students and teachers communicate, share ideas, and go about the business of education. The popularity of social media such as Twitter and Facebook and the use of other Web 2.0 tools like blogs and wikis are quickly increasing. As with many other new technologies, educators are looking to harness the potential of these resources to improve teaching and learning.

Rhonda Miller, M.Ed, has been a teacher and Instructional Leader in Lynchburg City Schools for more than thirty years. She is past president of the Virginia Society for Technology in Education and current co-chair of the VSTE Annual Conference. Rhonda has won numerous grants and teaching awards and has presented many workshops on various uses of technology in the classroom.

This workshop will focus on how to use social media and Web 2.0 tools to create classroom enthusiasm and increase student interactivity and engagement. While social media is popular and can be used effectively to improve student learning, educators must also be mindful of the privacy and safety concerns which will be addressed during the workshop.
